Shima Ghasemzade(AU Permanent Resident)
Front-End Developer

Melbourne | +61 402 543 705| shima.ghasemzade92@gmail.com | GitHub: shimagh74 | LinkedIn: shima-ghasemzade

Summary

Passionate and adaptable Front-End Developer with extensive experience in **React.js**, **Next.js**, and **TypeScript**, complemented by familiarity with **Node.js**. Skilled in optimizing code for reusability and enhancing user engagement, with a proactive approach to continuous learning and staying updated on the latest advancements in React. Dedicated to delivering high-quality, maintainable code with a user-first focus.

Skills & Abilities

- Experienced in **React.js**, **TypeScript**, and **Next.js**
- Experienced in state management using **Redux**, **React Context**, and **React Hooks**
- Proficient in front-end technologies: **HTML5**, **CSS3**, **SASS**, and modern frameworks like **Tailwind CSS**, **Material UI**, **Ant Design**, and **Bootstrap**
- Familiar with **Node.js** and **.NET** for server-side rendering and backend integration.
- Hands-on experience with unit and integration testing using **Jest** and **React Testing Library**
- Well-versed in **RESTful APIs**, **GraphQL**, and structured API integration for dynamic UIs
- Experienced with **CI/CD** pipelines and automation using **GitHub Actions**, with a focus on efficient, reliable deployments
- Comfortable working with **Git**, **GitHub**, **TFS**, and **Agile/Scrum** development environments
- Understanding of core **AWS** concepts including **Lambda**, **DynamoDB**, and **API Gateway**.
- Intermediate knowledge of **MySQL**, and **NoSQL** databases
- Practical experience working with **CMS** platforms such as **WordPress** for content-driven solutions
- Strong UI/UX focus, with a proven track record of translating business requirements into engaging and accessible user interfaces
- Fast learner with a collaborative mindset, always seeking to adopt new tools and share knowledge to improve team performance

Experience

FRONT-END DEVELOPER | FARAZ ERTEBAT | AUGUST 2020 – PRESENT

Faraz Communication Company specialises in designing, producing, and researching electronic and telecommunication products, as well as executing a diverse range of communication and radio projects.

Responsibilities

- Implemented projects using **React.js** and **Next.js** including development and ongoing maintenance
- Used **Ant Design, Material UI, Bootstrap**, and **Tailwind** for UI project development
- Converted Photoshop/Figma files into fully functional applications with **React.js** and **CSS(Sass)**
- Collaborated closely with UX/UI designers to bring mockups to life with interactive and accessible components
- Designed and implemented intuitive and user-centric interfaces with attention to responsiveness and cross-device compatibility
- Employed **React Hooks** and **Redux** for efficient state management
- Wrote scalable and type-safe code using **TypeScript** to enhance maintainability and reduce runtime errors
- Integrated and worked with **RESTful APIs** for data retrieval and manipulation
- Developed and tested components with **Jest** and **React Testing Library** to ensure functionality and reliability
- Built **real-time** UI components using **WebSocket-style** communication with **SignalR**
- Contributed to **CI/CD** pipelines using **GitHub Actions** supporting automated test and deploy workflows.
- Actively participated in **Agile/Scrum** ceremonies to support iterative development and on-time delivery

Achievements

- Achieved a 15% increase in customer satisfaction regarding project design and delivery time
- Addressed reported bugs promptly and enhanced application performance by 15%
- Optimized existing software components and applications by implementing effective testing methods

FRONT-END DEVELOPER (VOLUNTEER) | THURSDAY GIRLS GROUP | Apirl 2025 – PRESENT

The Thursday Girls Group is a not-for-profit community that provides free, ongoing emotional support to women living with metastatic breast cancer. Through weekly facilitated therapy sessions in Melbourne and online, the group fosters shared knowledge, emotional connection, and resilience.

Responsibilities

- Volunteering as a Squarespace/front-end developer to enhance website UI/UX, structure, and accessibility.
- Improved layout, spacing, and visual clarity while aligning with brand guidelines.
- Applied SEO and performance best practices to boost speed and search visibility.
- Supporting a meaningful cause while expanding hands-on experience in UI/UX and site optimization.

FRONT-END DEVELOPER | MAPSA HR | NOVEMBER 2019 - JUNE 2020

Mapsa HR's programming boot camp provides specialised and systematic programming training, equipping students with the techniques and skills needed to confidently enter the job market.

Responsibilities & Achievement

- Assisted in React JS and JavaScript development
- Programmed applications using React JS and JavaScript
- Designed and implemented user interfaces
- Worked with Material UI and Bootstrap
- Effectively maintained and optimised web applications, leading to a 30% enhancement in UX scores
- Collaborated with the back-end team to develop user-focused features
- Maintained web applications

FRONT-END DEVELOPER | ABZAR BALOOT | JUNE 2018 – OCTOBER 2019

Abzar Baloot is an online store specialising in construction tools, attracting 1000 daily site visits. Powered by a combination of WordPress, JavaScript, and PHP.

Responsibilities & Achievements

- Developed, designed, and maintained WordPress sites using HTML, JavaScript, CSS, and PHP
- Utilized MySQL databases
- Achieved a 20% increase in website traffic and maintained prominent search engine positions
- Implemented SEO best practices and website optimisation techniques
- Crafted fully optimised websites to enhance user experience and improve performance metrics
- Designed and implemented user interfaces

Education

Bachelor of Information Technology Engineering, Shahrood University of Technology, 2018

Recent Projects

Personal Portfolio Website
[portfolio-delta-ten-79.vercel.app | GitHub](portfolio-delta-ten-79.vercel.app)

- Developed a modern, fully responsive personal portfolio using **Next.js**, **TypeScript**, **Tailwind CSS**, and **Framer Motion**
- Highlights selected professional projects with interactive transitions and clean, accessible design
- Emphasized performance optimization, modular code structure, and SEO best practices

Aesthetics Website
sepiyar.com | GitHub

- Built a fully responsive website with **React**, **Tailwind CSS**, and **SASS**, focusing on user engagement and streamlined performance.

Flooring Project
maplefloors.com.au | GitHub

- Developed a scalable, interactive flooring services website using **React.js** and **TypeScript** ensuring high performance and code maintainability.
